From the seating specialists

Freedom of movement and the user's posture are critical points of office health. A poorly designed chair will result in poor posture which causes musculoskeletal ailments which in turn increases absenteeism rate. That is why a well designed chair will not only ensure that the user maintain proper posture but also alleviate some of the pain for those who are already affected. With our latest seating solution, BODY 2.0, we have your back.

Old expectations of a chair can finally be replaced by modern design and enhanced comfort. Instead of the big, boxy and bulky designs from the past, Benithem has thrown away that norm and come up with a newer, sleeker and more comfortable design which is aesthetically pleasing as well.

With BODY 2.0, freedom of the movement and proper posture are a given. You can rest assure that through our numerous research and development processes, we will only provide the best for you, BODY 2.0.
