FORTYFOUR MODULAR CONCEPT

benithem®

Benithem® is a global brand known for its dedication to incorporating quality hand-craftsmanship. Paired with modern technology, we create contemporary seating solutions for corporate offices or even home offices through internationally certified products.

Established in 1999, Benithem® Sdn Bhd's team of designers, technicians and customer service personnel are committed to creating high-quality, state-of-the-art designs that employ scientifically ergonomic principles in our conference, executives, managerial and task seating products. Creating QUALITY seating solutions is our focus, with an emphasis on mid to high-end project/contract office seating. Benithem® has expanded operations to its 120,000 square feet facility in Johor Bahru, Malaysia, and is well connected to major ports and airports of the region. Our experienced operations team manages an extensive sales distribution network in Malaysia, Southeast Asia and the Middle East, with future expansion plans.

We are proud to be one of the pioneers in the Malaysian office furniture industry and have grown the company with a global outlook. Benithem® office chairs are certified by Global Compliance Certification (GCC) through established 3rd party certified bodies, e.g. TUV/ PSB and FIRA. In addition, Benithem® has achieved certification for ISO 9001:2015 and the prestigious ISO 14001:2015. This means our entire operation and documentation follows international quality control standards for efficient control and records. Moving forward, our aim is to lead the group towards a new era of sustainability in the furniture industry. We are committed to implementing innovative practices and technologies to achieve this goal.

SUSTAINABILITY

At BENITHEM we believe that sustainability is designing and producing furniture that will stay with us for the longest time possible. Furniture we won't want to throw out. Consequently, the concept of environmental sustainability becomes important for BENITHEM from the furniture's conception, right through its design until the end of its useful life cycle.

Our collection is not extensive because we are only interested in producing something that is genuinely worthy of becoming a contemporary classic.

Produce sensibly and consume no more than necessary.
Quality ahead of quantity.
